

UNDERBLANKET

Manufactured by  and converted by Servicom Pacific
Ahead of Our Times

SP397 0.50mm
SP398 0.90mm
SP399 1.00mm

Application

Recommended For: All packing applications where multiple sheets & significant thickness is needed.

This blanket is to be used on any press which requires an underblanket or multiple sheets of underpacking. It has a printing face which can be used in emergencies.

Features

- Rubber Face

Gives more precise gauge to the top blanket. Can be used to print with in an emergency.

- Fabric Carcass

Longer life underblanket. Greater resilience than manila or packing paper. Assists with the smash resistance of the top blanket.

Technical Data

Description	A long life underblanket with emergency printing face
Colour	Black
Surface	Textured buffed face
Thickness	2 Ply 0.50mm 2 Ply 0.90mm 2 Ply 1.00mm
Face Compound	Solvent resistant rubber blend
Hardness	85 Shore "A", 75 micro indent test
Compressibility	N/A
Stretch	N/A
Tensile Strength	>2000
